## DESCRIPTION

All-in-one sound kit that includes a pair of ceiling speakers and a wall amplifier. With multiple playback options: Bluetooth®/USB, FM tuner with 50 preset stations, and two auxiliary inputs, expanding its possibilities and allowing you to enjoy music from any device with a line-level output. Additionally, with its 2 x 6" ceiling speakers, you can enjoy high-quality, powerful sound without distortion. 2.15" LCD screen displaying mode and playback information. Allows setting a maximum volume limit to ensure the desired volume is not exceeded, along with a sleep timer and bass and treble equalization. This kit is designed for installation in universal square and round standard boxes, making it easy to integrate into any space. Control via touch buttons or the included remote control. Ideal for small sound systems in waiting rooms, small shops, homes, etc.
